Practice Room Policies

- **No food or drinks**: Only water is allowed in the practice rooms.

- **No napping**: If anyone is caught napping, they will be required to leave the room to give priority to students who need to practice.

- **Leave chairs and stands in their practice rooms:** Do not move chairs and stands out of the rooms. Each room should have at least 1 stand and 1 chair.

- **No blocking windows:** It is a safety issue to block practice room windows with stands, jackets, or other coverings. Windows must remain unblocked.

- **Billman Practice Rooms**: Please give priority to students who need to practice their instruments. For theory homework or similar activities, please use the practice rooms in the music building or music practice building.

- **15-minute vacancy limit**: If a student is absent from a practice room for more than 15 minutes—whether or not personal belongings remain in the room–the room may be taken by another student. The original student may re-enter briefly to collect their items once they return.
